

## FEMA Cross-reference List

This is a cross-reference list of addresses to the August 29, 2008 FEMA list of structures that are **not** located in the Special Flood Hazard Area. The flood plain gods have smiled on you!

The page numbering starts with the first page of addresses - not the FEMA cover letter.

The FEMA list has several typo's and omissions. So when there is a cross-reference to a strange FEMA line, the cross-reference list is the more accurate.

Note that this list does not include those structures that are in the flood plain.

Joye Gasser did a spectacular job of creating the spreadsheet that allowed this cross-reference.

Any comments or questions regarding this list should be directed to Dave Brown 634-6048.
